Tania De Grave
Director & Founder
AgrenNewEnergy BV

Tania de Grave-Barbosa Curado - A business woman for over 20 years. Master of Law and MBA, spent eight years with the family agricultural commodities and textile business (more than 500 employees), as legal advisor and business manager. Initiated and managed projects for the development and implementation of non- food crops in Brazil. Assisted the plantation of sugar cane on the family properties, based on the " Pro- Alcohol " programme, supported by the Brazilian government.

From 1990 in the Netherlands purchased and sold properties on the Dutch Real Estate market. In that time developed a wide business network between Europe and Brazil. In 2002 founded the event company Ebenezer Hoeve Events for workshops and congresses, serving international blue chip companies. Founded the consulting and trading company, Terra Mae Brazil Ltd which trades agricultural commodities for bio- energy business.

Since 2002, expanded her business network and focused on the bio- fuels and bio- energy market. Biomass solid and liquid.

As independent consultant, she set up and advised new energy crops such as Jatropha Curcas and other energy projects in different countries. In 2008 she founded the Dutch company AgrenNewEnergy BV with a subsidiary company in Brazil AGRO Novas Energias and in Mozambique which builds on work completed in the last 7 years to develop the potential non -FOOD oil crop feedstock Crambe Abyssinica and others potential emerging new feedstocks and deliver a major new energy business based on it with successful Nederland-based plant breeding company, R&D , with partnership with Wageningen University and the Swedish agriculture university, with years of international plant development experience. Experienced in establishing bio crop production projects and breeding locations in different continents.
